Achievements –

- Received offer letter from EdgeFX Technologies for internship
- Received offer letter from InternPE for internship in AIML.
- I successfully finished a 6-week online machine learning training on Internshala.
- I contributed to open-source projects on GitHub, emphasizing collaboration.
- I've completed the 'Machine Learning with Python' course offered by FreeCodeCamp.
- I've finished the 'Responsive Web Design' course online from FreeCodeCamp.
- I've successfully completed the Python course offered by GUVI in collaboration with IITM

Personality Traits –

- Quick Learner & Leadership Skills
- Team Player & Adaptability
- Accountable
- Creative & Problem Solver

Projects –

1. Mini Project: House Price Prediction Using Machine Learning Algorithm - The Case of Hyderabad

This project tackles the vital task of predicting housing prices accurately, catering to clients and property dealers. Utilizing a Linear Regression model and a user-friendly Tkinter-based GUI, it empowers non-experts to make informed housing investment decisions.

Position: Team Leader

Team Size: 4 members

Duration: 60 days

2. Online Event Registration System

Developed an online event registration system using PHP and MySQL to streamline the process of event management. The system allows event organizers to create and manage events, while attendees can register for events online.

3.To-Do List Web App

Created a simple and intuitive to-do list web application using PHP for server-side functionality and MySQL for data storage. This beginner-friendly app allows users to add, edit, and delete tasks, helping them organize their daily activities effectively.

Declaration –

I hereby declare that all the above information is true to the best of my knowledge and belief.
