## Career objective –

To secure a challenging role in an organization where I can leverage my skills in artificial intelligence and machine learning while continually learning and contributing to the growth of the company.

## Academic Profile –

Course	Institution	University/Board	Batch
B.Tech Computer Science (AIML) Engineering	Siddhartha Institute of Technology and Science	Jawaharlal Nehru Technological University	2020 - 2024
Intermediate (MPC)	Sri Chaitanya Junior College	Board of Intermediate Education	2018 - 2020
SSC (10 <sup>th</sup> )	MS Creative High School	The Board of Secondary Education, Telangana	2018

## Technical Skills –

Technologies	Artificial Intelligence, Machine Learning, Natural Language Processing, Deep Learning, Aws, Azure
Languages	Python, Java, C language(basics), R(basics).
Databases	DBMS, MySQL(basics).
Frameworks	NumPy, Pandas, Matplotlib, keras, Scikit-Learn.
Web	HTML, CSS, JavaScript(basics), WordPress(basics), PHP (basics).
Version Control	Git (GitHub)
Operating System	Windows 7/8/10/11

## Experience --

### Machine Learning Intern at Ignitus February 2024 – Present

- Actively contributing to Ignitus' Learning Management System (LMS) project as a Machine Learning Intern, reporting to COO Afelio Padilla.
- Implementing and refining machine learning algorithms to optimize the functionality of the LMS
- Demonstrating adaptability in a remote work environment and ensuring a smooth transition into the current role.

## **Achievements –**

- Received offer letter from InternPE for internship in AIML.
- I successfully finished a 6-week online machine learning training on Internshala.
- I contributed to open-source projects on GitHub, emphasizing collaboration.
- I've completed the 'Machine Learning with Python' course offered by FreeCodeCamp.
- I've finished the 'Responsive Web Design' course online from FreeCodeCamp.
- I've successfully completed the Python course offered by GUVI in collaboration with IITM

## **Personality Traits –**

- Quick Learner & Leadership Skills
- Team Player & Adaptability
- Accountable
- Creative & Problem Solver

## **Projects –**

### **1. Mini Project: House Price Prediction Using Machine Learning Algorithm - The Case of Hyderabad**

This project tackles the vital task of predicting housing prices accurately, catering to clients and property dealers. Utilizing a Linear Regression model and a user-friendly Tkinter-based GUI, it empowers non-experts to make informed housing investment decisions.

Position: Team Leader

Team Size: 4 members

Duration: 60 days

### **2. Personal Portfolio Showcase**

Description:

Designed and developed a personal portfolio to showcase my skills and accomplishments.

This platform serves as an interactive representation of my expertise, highlighting key aspects such as technical skills, projects, and professional experience.

### **3. Interactive Survey Form**

Description:

Developed an interactive survey form designed to collect and analyze user responses efficiently. This project focuses on creating a seamless and engaging experience for participants, ensuring accurate data collection for meaningful insights.

## **Declaration –**

I hereby declare that all the above information is true to the best of my knowledge and belief.
